

INTRODUCING DELICIOUS VINYL DJ

The first iPhone DJ rhythm game that features directional touch turntables, custom scratches and top hits from the golden era of hip hop.

Thank you for your interest in Delicious Vinyl DJ!

You can find a Press Kit at www.deliciousvinylDJ.com which includes promotional photos & videos, screenshots, game tutorials and supporting documentation.

Delicious Vinyl DJ is the first iPhone/iPod Touch DJ rhythm game that features touch turntables that can be scratched to the music. The better the game is played, the better it sounds; all scratching and samples were custom-made for each song by DJ M-WALK, touring DJ for The Pharcyde, Tone Loc and MC Hammer. When players hit the notes, the scratches and samples are played, resulting in new remixes of these top hits from the golden era of hip hop.

Contributing artists include Young MC, Tone Loc, Peaches, The Pharcyde, Masta Ace, Mr. Vegas, Lil' Jon, Pitbull and Eminem. More songs to follow in future updates!

Please visit www.deliciousvinylDJ.com to view the introduction and promotional videos.
